### A Note for the Grown Ups:

Our Kids Cooking Club books are designed to teach kids basic cooking skills without requiring a lot of adult intervention. The recipes in this book are all made in the microwave (not the stove). We have included a Microwave Safety Tips sheet that can start a conversation about microwave safety.

Meet Our Kids' Cooking Club!

Andrea, Otto, Graham and Blossom love cooking so much that they formed Our Kids Cooking Club. Each week they meet at someone's house and everyone gets to make a dish that the group can share!
