you flowers. Plant  
your own garden  
and decorate your  
own soul.

## Book Dedication

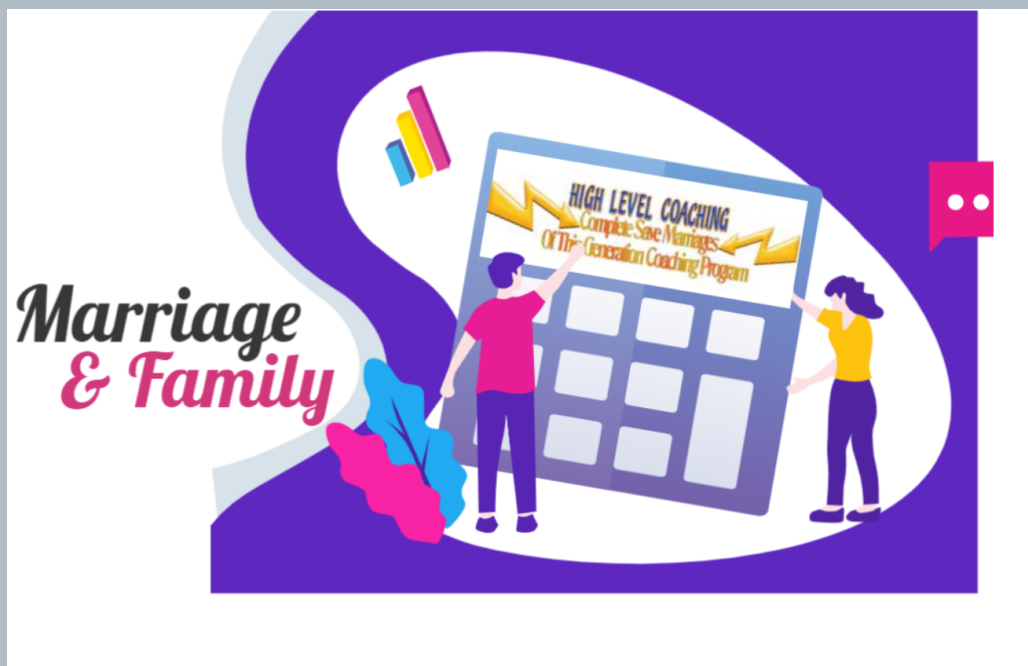

This book is cordially dedicated to Sister Miracle, our only daughter – you are now in your late teenage the grace of God keeping you. Like I always said to you all including your brother, that if God`s program lingers long and Jesus Christ delays to come back for his church – you all will end marrying and getting married.

I would like you and the man who shall love you to stay with you all life to know that this is the secret and miracle of marriages and relationships. I want you to know that marriage is as GOOD or as BAD just as the people in that marriage.

There is no other disadvantage or advantage of relationships outside this. And to know that there is no miracle or surprise other than what I have mentioned here. EXACTLY what the people in a marriage are -So is their Marriage! So those who desire their marriage and relationship to be somehow above the pikes – they must work it to be so!

Your Dad

Dr. Norman

## The Origin of Marriage;

The origin of marriage is found in the Bible, but suppose evolution were true for the sake of argument, then marriage would be a completely useless and ridiculous sentiment for numerous reasons. Furthermore, if God's Word was not true (as most others treat it today), then marriage is just some imaginary concept created by man, and the ultimate authority over it would be the government (which is also how most people treat it today). In reality, there is no government that owns marriage -though many governments are very good stewards of marriages.

The origin of marriage is a great debate subject. Many people are wondering how marriage began. There have been studies that claim the existence of marriage 4,350 years ago. Before this time, families were made up of less organized groups consisting of more or less than thirty people. The group consisted of men that shared women. With the introduction of agricultural civilization, the society demanded for stable arrangements. From a Christian perspective, the origin of marriage is to be found in the vox Dei, not the vox populi.

God instituted marriage and God defined marriage. As one of His creation ordinances, marriage so defined is valid for all humanity at all times and in all places. It is not to be casually cast aside or re-defined. God has provided a standard — one designed to be a blessing to those who adopt it as their own. An important point can be interjected into the lesson on the origin of marriage. Man's best friend is not Fido (or any other substitutions), because in these verses he tells of the creation of Eve, Adam's Suitable Helper. The key to marriage is a true belief and understanding of it.

# You Might Need To Consider This Before Making The Greatest Mistake in Your Relationship!

Once the honeymoon is over, it's time to get down to the reality of marriage. Soon enough, you have to face the facts: most marriages have problems, so don't feel like you're the only couple in the world having spats. But that should not sound like there are no sound, blessed marriages though, it's true there are married couples who are happily living and happily married and enjoying in their marriages.

Learn to recognize the most common problems in marriages today and how to handle them together, and you'll make your relationship stronger and longer. According to Dr. Norman Mike M, a couple has to learn to understand and respect each other's differences and accept opposing views to make a marriage work.

Based on the first study, researchers are looking at what might help people become more resilient to stress and strengthen their ability to enjoy positive experiences in their marriages.

## [Complete Save Marriages Of This Generation](#)

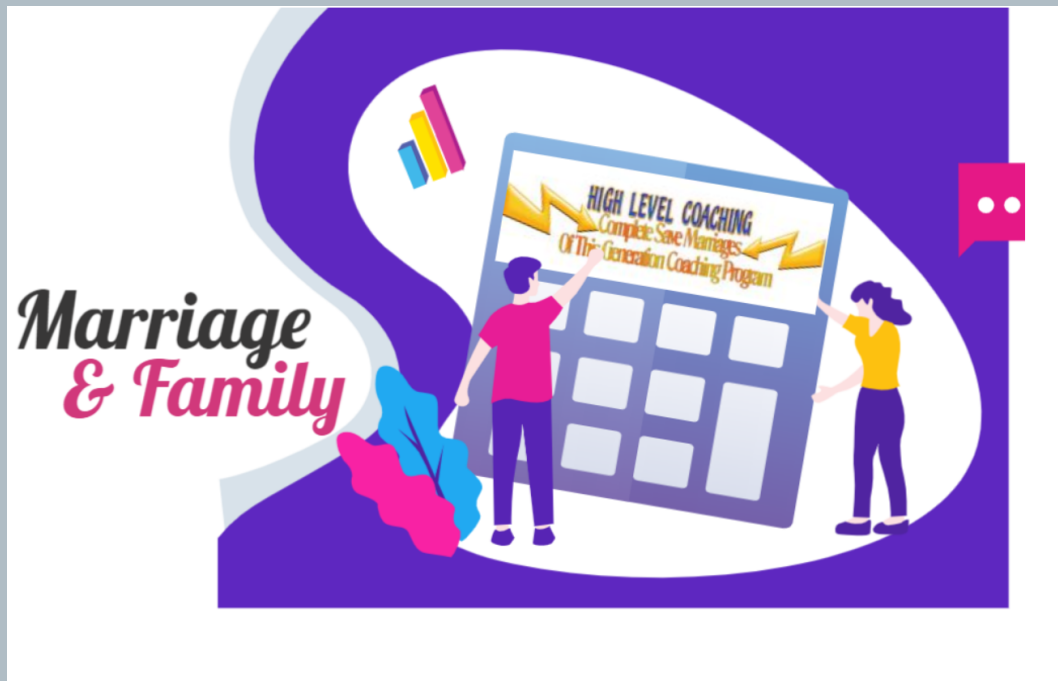

Is an Online Marriage Coaching & Enrichment Program which has helped hundreds and hundreds of married couples across the globe?.

This is all to safeguard the essence of the true Marriage in our communities. Why, because Marriage is the sacred institution that provides the foundation for the individual, the family, the community and the nation. Marriage is the foundation of the family, and the family is the foundation of every community and nation.

Every person we see in every office, or every person we see in every gang, or brothel belongs to some kind of family where there was a father and a mother - where there was a marriage. It's unfortunate that our communities we now have those who consider same sex marriages where we cannot talk of children coming from there, if they are not brought in (not born) by adoption or by some other unnatural means?

Which puts such kind of relationships at disrepute, because they cannot function naturally as the original marriage created by God in the Garden of Eden.

This indicates to us that when people think that what God ordained – (that man and woman shall be joined together) can be violated, perverted or twisted somehow and start having same sex marriages – then God will remain God and you will know no matter how the disbelief and perversion of the truth, there is always a limit to how people can try to be like God or try to sideline what God has declared, done, said or still do today.

There is something I would like to highlight as we begin, so that it would help us as we continue in this discussion. I used to get very worried at the alarming divorce or marital violence rates –especially when associated with Christian households. I used to get really worried on hearing the marriage divorce rates.

But I no longer do so because the Lord revealed something to me which I believe we all need to know – especially Christians both those who are parties to marriages and those who have married people as members of families.

And I would like to warn you in advance that this is not said to justify any marital weakness, of any sort. Disagreements and discontentment because all these are being engineered and influenced from the deepest parts of hell and they are weapons the enemy is using to wage his war against the marriage.

All to destabilize the state of the true marriage on earth –Remember the true union between husband and wife resembles Christ and the Church –the Groom and the Bride! We all need to know that the ultimate target of the enemy is not the mere parts to that marriage, but the glorious resemblance of the True marriage is Christ and the Church.
