11	Chapter 6 - How to Make a Great Product Review
16	Chapter 7 - How Will People Find Your Site?
18	Chapter 8 - 3 Other Ways to Promote Affiliate Products
20	Chapter 9 - Conclusion

Making Money Online

Many think that making the first \$150 online is not that easy...

Actually, that's not quite true – earning your *first* \$150 online IS pretty easy...

What I'm going to show you in this ebook makes it easier to do.

What's hard is **believing you can do it** and stick with the method.

Once you've made your first \$150, then all you have to do is replicate the system. You know you can do it when your sub-conscious belief system kicks into place. By then, pulling in \$150 daily will be a simple matter.

It is that **first step** that takes some time to do it right.

So much so that I think it's easier to make \$1000, \$10,000 or \$100,000 online than it is to make \$150.

Take that first step, jump that first hurdle and you'll never look back.

Setting Things Up

The best, simplest and easiest way to start is selling **other people's products as an affiliate**.

There's little risk and the setting up is quite straightforward. With a little help (that's what this book is for), you'll see the results speak for themselves.

So let's start setting up for your first \$150...

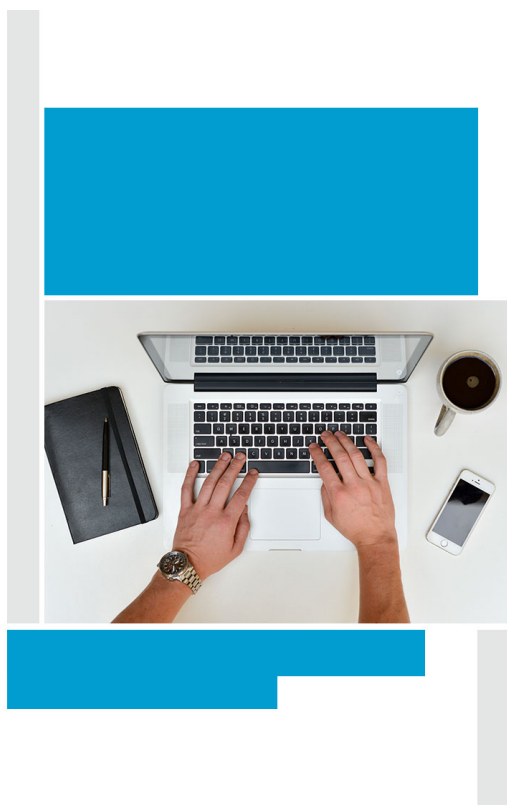

Chapter 1 - Getting Started As An Affiliate

How does Affiliate Marketing Work?

Affiliate marketing allows you to make money (earn a commission) by recommending products and services to your readers. You get paid only when your recommendation converts into a subscription or a sale.

This means you get a commission for each sale of a particular product that comes from your link as a referral.

It's definitely the easiest route into making money online, and here's why...

You don't have to spend time and effort creating and marketing a product of your own.

You don't have to deal with customer service and recruiting people to sell for you.

What you first have to do is find a product to promote. Then you create a webpage (where they opt-in with their first name and email) and introduce the product. You need to describe how this product will solve the pain points of your audience.

You then drive traffic to that opt-in page either with free traffic on Facebook, or Facebook paid traffic. That's all there is to it!

The good thing about affiliate marketing is that people don't **even have to buy the specific product** you are recommending. Depending on the program, once your readers click on the link, the program will **save a cookie** on their device.

This cookie, depending on the affiliate program, could last 24 to 48 hours, a week, a year or never expire.

If your readers go back to the same website and buy anything while the cookie is still active, you will still make money from it!

Chapter 2 - Your Commission Matters

Where to Find Great Affiliate Programs

There are many affiliate programs on the internet and most will allow you to become an affiliate for them.

The most common ones are **ClickBank.com**, **WarriorPlus.com** or **CommissionJunction (cj.com)**.

You can also search more niche-specific ones this way... for example "dog training + affiliate program". This will search all the affiliate programs that relate to dog training.

ClickBank has a huge marketplace full of products for an affiliate to promote.

Many affiliates choose **ClickBank.com** to start with for many reasons. They are incredibly easy to use, the merchants pay generous commissions, and their products sell well.

ClickBank describes itself as a "leading retailer of digital products". Everything on their site can only be digitally downloaded.

From an affiliate's point of view, it makes sense to spend your time and money promoting products that will pay you well.

It is important to spend some time researching for the best product that fits your audience well.

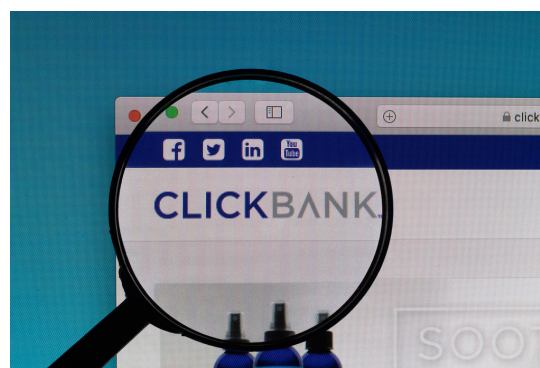

Also know how, when, and how much your commission will be. All affiliate programs differ in that respect.

ClickBank protects their affiliates from getting involved in bad products and they do it this way...

After the merchant creates their product, they submit it to **ClickBank** for approval. The product could be an ebook, service or software.

ClickBank will not accept any products that make false or misleading claims, or which promote illegal activity. They will also review a product for its quality. **ClickBank's** reputation is on the line with each product on its site. It does not benefit them to accept a poor-quality product that will not sell well.

This is great for us as affiliates because we know that all **ClickBank products** will be of a certain high-level quality.
