How to Teach Your Child Their Numbers

When you are looking for the best way to teach your child their numbers when home schooling, you will want to consider the following.

First, you need to look at how they learn best. Your Child a visual learner and others are auditory learners. You need to look at what type of learning style they have and then figure out what is best for them. For instance, if your child is an auditory learner, you can use games or songs to help them learn their numbers. If you child is a visual learner, you might want to use flash cards.

You also need to think about how much time you have available to spend instructing your child. If you have a full-time job, you may not be able to spend a lot of time with your child as you would like. In this case, you may want to consider hiring someone to teach your child their numbers. This way you can get back to work and still be able to teach your child their numbers in a timely manner.

If you do not have any other options, you can always teach your child their numbers yourself. However, it is important that you find a method that works well for you. You need to take the time to research different methods so you can choose one that is going to be most effective for you.

Finally, you need to make sure that you are doing all you can to help your child learn their numbers. It is important that you set aside time each day to work with your child. If you do not, you will not see any improvement. Also, it is important that you set up a schedule for your child to follow. This will help you keep track of how they are doing.

To help you I have put together this Kids Math Number Booklet. It is a digital eBook download so it is easy to purchase and then use. It has four level clearly marked; these are all adding sum pages. Start from the beginning and work through the pages. Remember to reward your Child as each section is completed.

HOW TO PLAY

Fill the empty spaces " _____ " with the right number (whole number) or the right operator.

KIDS MATH PAGES - 1

Class: _____ Name: _____

Date: _____

1. $3 + 3 = \underline{\quad}$

5. $2 + 2 = \underline{\quad}$

2. $1 + 4 = \underline{\quad}$

6. $8 + 6 = \underline{\quad}$

3. $3 + 1 = \underline{\quad}$

7. $2 + 6 = \underline{\quad}$

4. $3 + 5 = \underline{\quad}$

8. $8 + 2 = \underline{\quad}$

KIDS MATH PAGES - 2

Class: _____ Name: _____

Date: _____

$1.5 + 8 = \underline{\quad}$

$5.2 + 1 = \underline{\quad}$

$2.6 + 6 = \underline{\quad}$

$6.5 + 8 = \underline{\quad}$

$3.2 + 8 = \underline{\quad}$

$7.4 + 5 = \underline{\quad}$

$4.8 + 7 = \underline{\quad}$

$8.4 + 6 = \underline{\quad}$

KIDS MATH PAGES - 3

Class: _____ Name: _____

Date: _____

$1. 3 + 5 = \underline{\quad}$

$5. 1 + 4 = \underline{\quad}$

$2. 8 + 8 = \underline{\quad}$

$6. 7 + 2 = \underline{\quad}$

$3. 2 + 3 = \underline{\quad}$

$7. 2 + 8 = \underline{\quad}$

$4. 2 + 7 = \underline{\quad}$

$8. 5 + 6 = \underline{\quad}$

KIDS MATH PAGES - 4

Class: _____ Name: _____

Date: _____

$1.5 + 5 = \underline{\quad}$

$5.3 + 6 = \underline{\quad}$

$2.6 + 3 = \underline{\quad}$

$6.6 + 7 = \underline{\quad}$

$3.2 + 3 = \underline{\quad}$

$7.6 + 1 = \underline{\quad}$

$4.8 + 2 = \underline{\quad}$

$8.4 + 3 = \underline{\quad}$

KIDS MATH PAGES - 5

Class: _____ Name: _____

Date: _____

$1.2 + 8 = \underline{\quad}$

$5.7 + 1 = \underline{\quad}$

$2.8 + 3 = \underline{\quad}$

$6.7 + 5 = \underline{\quad}$

$3.8 + 8 = \underline{\quad}$

$7.1 + 5 = \underline{\quad}$

$4.8 + 2 = \underline{\quad}$

$8.5 + 3 = \underline{\quad}$
