Foreword

Learning the way we work (as well as other people) is a very important aspect when it comes to living an effective life.

We were created unique and though we are like other people, we are also unlike other people. If we were just like everyone else, then everyone will be a carbon copy of one another with no individuality or artistic sense. Mankind will be boring – even monkeys and other animals have different species which evidences diversity.

You and I are diverse, unlike one another. We cannot be like others – we can only be ourselves.

But do not just be content with being yourself – be a better you!

That is why the Enneagram of Personality is such an important subject to undertake.

With the diversity of mankind, it is more important to learn how to understand other people and understand how they work. Don't try and change yourself to fit into their mold nor try and change them to fit ours – it is not what we are called to do.

This book is a culmination of years of study, analysis of human psychology and personal experience rolled together.

What works for one may not work for another and likewise you may or may not agree with some of the results whether it is pertaining to you current predicament or not – it is just for self-discovering purposes with no intention to offend nor ridicule.

There is no right or wrong type.

Please do not get worked up when your result appears because life is a process of discovery and a constant journey. You might be different 10 years down the line... you will never know.

Besides, if anything else matters... know that living an effective life involves interactions with other people which is often really difficult because we do not understand them.

Suffice to know for now, that reading this book will open your mind if you let it – take notes if necessary and above all, have fun with it!

Get ready to unlock the mystery and your true potential at the same time!
