Prompts For ChatGPT, Chatsonic & Other Platforms

AI Prompts & Examples

Well unless you are sleeping under a rock you will no doubt of heard about the phenomena of what people are calling AI (Artificial Intelligence) and how it changing live and how we are using this in our working and personal lives. In only a short few months the numbers of users have exceeded 100 million alone on the ChatGPT platform and that is just one of a number springing up almost daily.

But what the key is to using these new AI platforms is the written text that are called Prompts. Like most things Gargabge In - Garbage Out is relevant and the more specific you are the better the response you will get for yourself and your business.

Inside this ebook compiled by Bspoke eBooks you will discover 300 Business Template Prompts and examples of how these prompts need to be formulated in such a way that gives the best response from the AI Platforms.

This is a follow up book that is part of the Bspoke EBook Compilation Series designed to bring helpful and essential Business Prompt Queries.

Where as the book on the left covered Business Proposal Templates that were designed around Investor Proposals, Funding Proposals, Management and Reporting Prompts.

Businesses need to understand that AI is here right now and will help to reduce working costs as well as providing a must have Business Tool in their workplace. The next page shows the Business Prompts areas covered in the book on the left.
