Many thanks to Anthony (Tony) Robbins for sharing his wisdom and being an inspiration to me and millions of others. His teaching helped inspire me to write this book.

I was especially intrigued by the concept and his findings of, *The Six Human Needs*, which I have referred to in my book.

Referring to his teachings and by adding my own personal interpretation and beliefs, I created a little twist to the definitions. I hope the variation contributes to, as well as, provides a different understanding of the overall needs of people.

By no means, are my perspectives meant to challenge that of Tony's, but rather to share a different point of view.
