Introduction

What gets you up in the morning? What drives you to keep going even when things aren't going well? What makes you lose track of time to the point where you sit up again with a jolt, surprised at where you are?

All these things have one thing in common. Purpose.

Purpose is perhaps one of the greatest motivators you will ever come across in your lifetime. It is also the root of humanity's greatest accomplishments. What has ever been invented which did not have purpose as the push to make things happen?

But as much as we need purpose, it can be difficult to find. People have spent lifetimes in the pursuit of purpose. It's the topic of thousands of discussions and has been the topic of conversation among philosophers, religious leaders, and individuals for millennia.

In this book, you will be introduced to the concept of purpose. You'll learn what it is and why it's not just important - it's necessary to success.

At the same time, you will be given instructions on finding your own purpose. While the pursuit can be difficult, it is possible, and more importantly, it is worth it.

Finally, you'll learn how to embrace this purpose daily. What's the point of finding your purpose if you don't honor it?

Ready for an adventure? It's time to discover something you're going to be passionate about. Time to explore your life's purpose!
