# 7 Circuit Labyrinth

The labyrinth has only one path in and the same path out. It is an incredible single-path tool for self-alignment.

The labyrinth connects us to the earth and is symbolic of our spiritual journey on this earth.

**Color** your path in & your path out OR just use 1 color for the entire path.

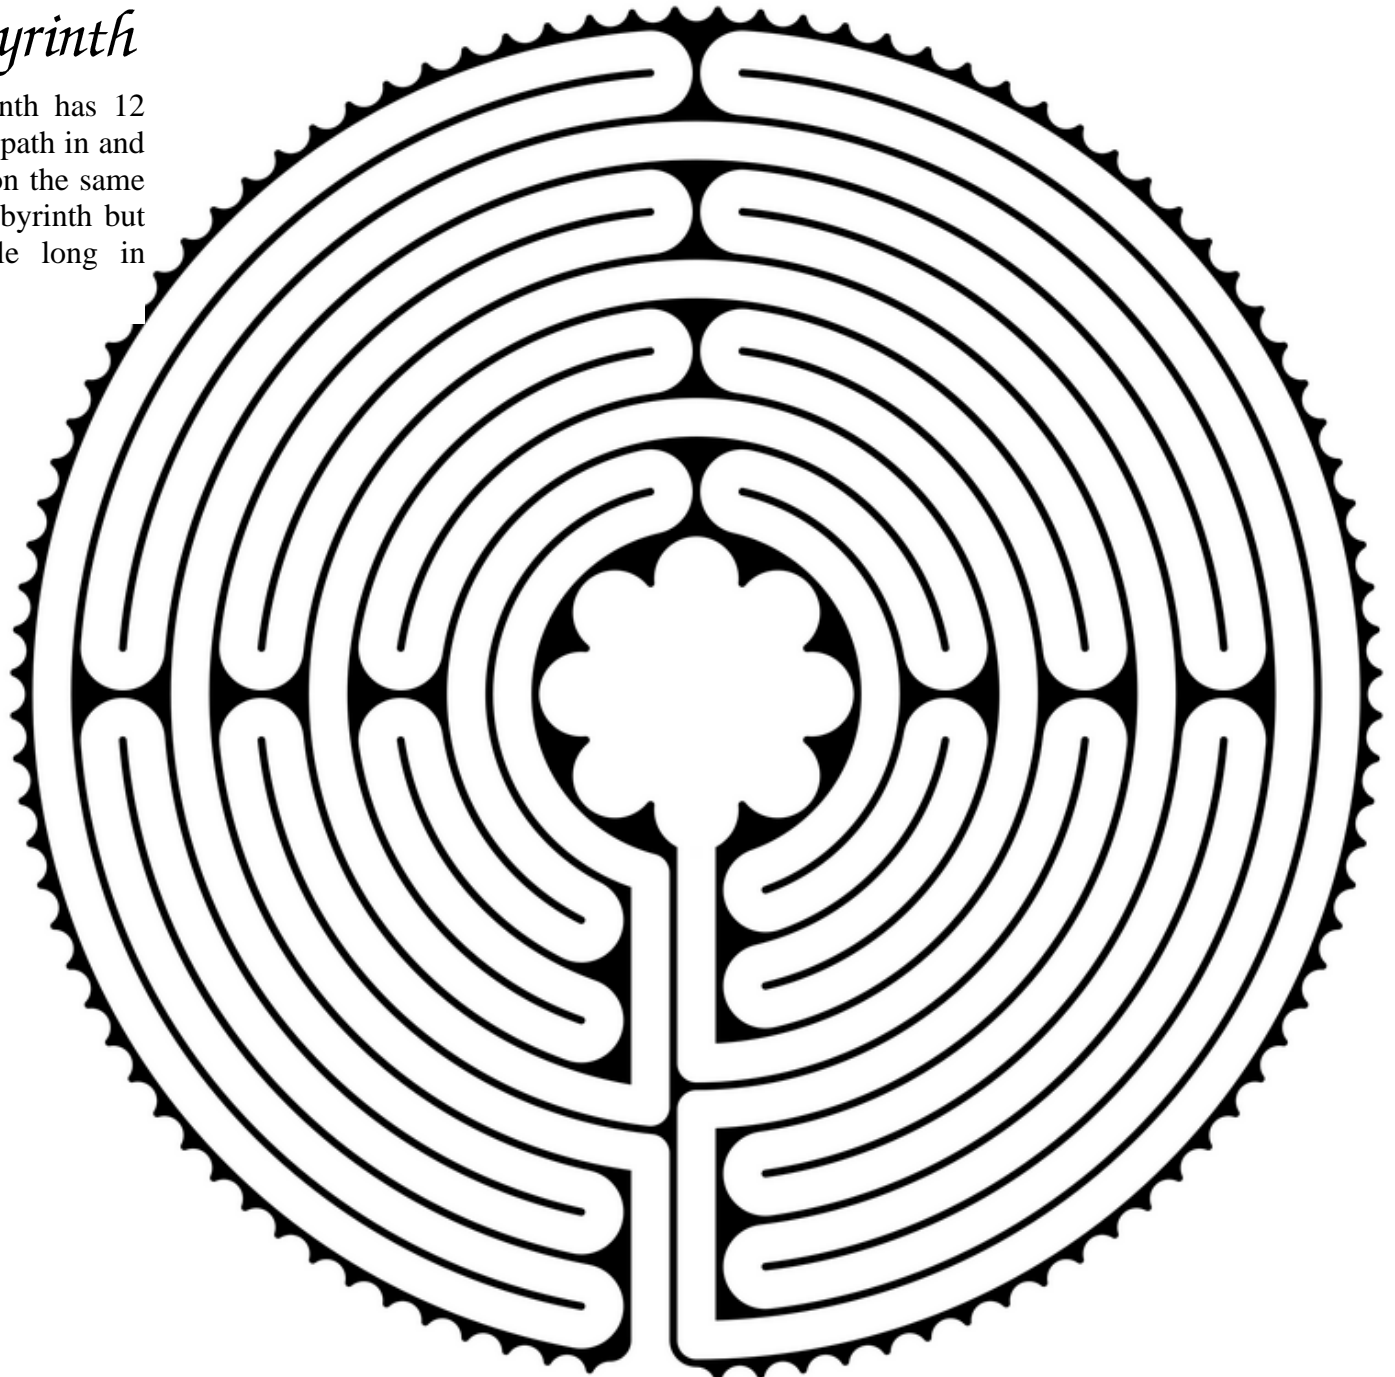

## *12 Circuit Labyrinth*

The Chartres Design Labyrinth has 12 circuits but still only has one path in and the same path out. It works on the same principles as the 7 circuit Labyrinth but is usually over half a mile long in walking distance.

**Color** your path in & your path out OR just use 1 color for the entire path.

Just Allow Yourself to be Guided.
